

Scoop it up, It's Your Duty!

It Adds Up!

If all the dog poop created in one day in Abilene was put in one pile, it would be this big and weigh 19,000 pounds!

You know what this is.

This is Our Water

After a rain, yucky stuff like nutrients and bacteria washes from the dog poop into our waterways.

What's the Problem?

Pet Waste:

- It's Not Just Smelly!!
- It's Not Just Yucky to Step in!!
- It's Not Just Fertilizer!!
- IT'S A PROBLEM!!

Human and Pet Health:

Pet waste can cause:

- Giardia
- Roundworms
- Salmonella
- Other unpronounceable Viruses and Parasites

Water Quality:

Nutrients in pet waste can cause:

- Aquatic weeds
- Algae
- Gasping fish (no oxygen!)
- Water that is just too nasty to look at or play in

What Can You Do?

Bring It! Carry a scooper bag when you walk your dog

Scoop It! Use a baggie as a glove, scoop the poop, invert and seal the bag

Toss It! It belongs in the trash

Dyess AFB Military Family Housing area has 21 Pet Waste Stations in location around the park open areas as well as near the lake and the Dog Park. These stations include dog waste bags and a dispenser to place the dog waste. The stations are checked regularly and the doody is properly disposed.
